

**Public Notice: Projects Selected for Inclusion in the 2012 Competition for U.S.  
Department of Housing and Urban Development Continuum of Care (CoC) Funds**

January 2, 2013

The Regional Continuum of Care (RCCC) conducted a local Continuum of Care (CoC) rating and ranking process for projects submitted on or before December 17, 2012, for consideration in the U.S. Department of Housing and Urban Development 2012 CoC Homeless funds competition. The process for submitting an application and the rating and review criteria were prepared by the Rating and Review Group, recommended by the RCCC Steering Committee, and approved by the full body in November 2012. Information regarding this process and the guidelines were announced to the CoC and publicly posted on the Supportive Housing Program (SHP) page of the County of San Diego, Department of Housing and Community Development (HCD) website.

This correspondence provides information about the results of the process. Selected projects received 75% or more of possible points (97 out of 130) or were prioritized for specific ranking by the CoC and qualify for inclusion in the 2012 CoC NOFA consolidated application in the HUD competition. Each applicant will receive a spreadsheet indicating which of their projects were selected, the rank order and budget information.

The next step is to complete all sections of the CoC Application in E-Snaps and submit to the national competition before January 18, 2013.

Please refer to the local NOFA Planning calendar for other important deadlines.
